The top-10 makers are missing from the fills of wallets that were toxic on the first night (typed on night 1, scored on three
All fills at the touch:
2.6–6.8× fewer of the toxic wallets' fills
Only fills with no mid move in the next 1 s (not pick-offs):
still 1.4–4.1× fewer, so it is not speed alone
top-10 makers' share of that wallet type's fills, later sessions
wallet was benign on night 1
wallet unseen on night 1
wallet was toxic on night 1
