The top-10 makers are missing from the fills of wallets that were toxic in the first sessions (typed Oct 6 to 12, scored on 5.0M fills from Oct 20 t
All fills at the touch:
1.9–3.6× fewer of the toxic wallets' fills
Only fills with no mid move in the next 1 s (not pick-offs):
still 1.7–2.1× fewer, so it is not speed alone
wallet was benign in the first sessions
wallet unseen in the first sessions
wallet was toxic in the first sessions
top-10 makers' share of that wallet type's fills, later sessions
